ZHONG YUE

CGD GRADUATE

+86 132 4259 6903 johnyue47@gmail.com GuangDong GuangZhou China

Education

Bachelor of Science Computer Game Developent

Asia Pacific University of Technology & Innovation (APU)

Address
Jalan Teknologi 5, Taman Teknologi Malaysia, 57000 Kuala Lumpur,

2022-2026

Skills

Game Engines: Unity, Unreal Engine 5, Layabox

Programming Languages: C#, Python, Basic C++

Art Tools: Blender, 3ds Max, ZBrush, Aseprite, Substance Painter

Online Plugins: Unity NGO, Photon

Version Control: GitHub

Language

Chinese

Cantonese

English

About me

- 22 years old | Fluent in Mandarin, English, and Cantonese | 9 years of overseas living experience
- Passionate about game development, possessing a solid understanding and practical experience across the entire game development process.
- Proficient in mainstream game engines such as Unity and Unreal Engine 5, and skilled in art tools such as Blender, 3ds Max, ZBrush, and Aseprite, capable of independently completing the entire development process from prototype design to feature implementation.

Experience

Front End Developer

Oct 2024 - Feb 2025

GuangZhou YiYouWeiJing

Multi-platform Testing and Performance Optimization: Conduct specialized compatibility testing, performance testing, and memory analysis for game clients (including versions output from H5/Mini Program platforms such as Layabox), and propose optimization suggestions to improve frame rate and stability on mobile devices.

Test Automation and Tool Support: Assist development in automating the testing process using Python scripts (such as regression testing and resource checks), and write clear test reports and traceability documents to effectively support the development team in locating and fixing issues.

Cross-departmental Communication and Process Improvement: Communicate requirements and progress with the planning, development, and overseas testing teams entirely in English, participate in iteration reviews, drive test case improvement and process optimization, and improve overall delivery quality and efficiency.
